Invitation

Dear Sir/Madam

With immense Pleasure, we invite you to participate in the **International Conference on Molecular Biology: Its Approaches and Developments in the Recent Era** scheduled to be held at Shri Shankaracharya Mahavidyalaya Junwani, Bhilai, Durg, C.G., on September 15 & 16, 2023. Your Contribution in making this conference successful would be valuable.

About Country- India

India is one of the oldest civilizations in the world with rich cultural heritage. The largest democracy in the world India is a constitutional republic consisting of 28 States and 08 Union Territories. India is the 7th largest South Asian country in the world. This is a country of rivers, mountains, valleys, lakes and oceans where great leaders, scientists, philosophers and social reformers were born. This is the place where Taj Mahal, Golden Temple, Khajuraho and Ajanta - Ellora caves are present. The common statement of India is "*Unity in Diversity*".

About State - 'Chhattisgarh'

Chhattisgarh is located in Center-East of the India. It is blessed with dense forests, majestic waterfalls, magnificent caves, rich temples and heritage sites with impressive forts and places. The Hill Station **Mainpat** in Ambikapur District is widely known as Switzerland/Shimla of Chhattisgarh. The **Chitrakote Waterfalls** in Bastar District is famously known as Niagara of East. It is one of the fastest developing states in India retaining its glorious history of tribal culture and rich heritage of traditional arts, sculpture and handicrafts.

About The Institute

Shri Shankaracharya Mahavidyalaya SESREC institution; NAAC Re-accredited with 'A' Grade CGPA: 3.10, Recognised u/s 2 (f) and 12 (B) of the UGC Act 1956, Affiliated to Hemchand Yadav University, Durg established in 1997, located in the heart of Steel City Bhilai. SSMV is a dynamic institute of knowledge in Science, Commerce, Art, Computer, Education and Management at both graduate and post graduate levels where students get strong platform for building their careers as per their own interest. On the path of excellence, with perfection, faculties are always ready to contribute overall development of students and ultimately the society.

Introduction

The field of Molecular Biology has a profound impact in life science investigation. Major advances in molecular biology over the last four decades have stimulated research and progress in almost all the disciplines of life science. Even the developing countries cannot ignore the benefits and impact of Molecular Biology and its importance. As we have gained knowledge at this level, cell and molecular biology has become an indispensable prerequisite to understanding most biological problems.

Objective of the Conference

The science of new era is based upon utilization of biological products at every possible field of life. Hence to match with the pace of development; scientists, teacher and students must be made aware and active with the current scenario. Noble research work make a country noble and also economically strong. This conference will provide a forum for enhancement and exchange of ideas and knowledge on recent Approaches and Developments in Molecular Biology. This conference will also provide a tribute for interactions between researches and provide them a number of opportunities.
