

Information about the facilities added in the last quarter in the education department of the college

The education department in the college was established in the year 2004. The education department has achieved excellence by gradual progress and the never-ending qualitative enhancement manifested in the quality teacher training program as well as the comprehensive enrichment of teacher-trainees with all the new and technological means and methods adopted to make the teaching-learning process more effective. We are moving towards establishing ourselves as a training and research center to contribute in the field of educational research. The college expands its infrastructure for the students from time to time. The following are the lists of facilities added during the last quarter in the college for the purpose of developing infrastructural facilities and expand the academic resources of the college.
